SPECIAL WEAPONS FOR MILITARY & POLICE

ELIMINATOR AR-15 CLEANING KIT

The Iosso Eliminator AR-15 Cleaning Kit contains 6 precision-fit brushes specifically designed for cleaning the Upper Receiver, Chamber, Bolt Carrier, .223 Bore, Bolt Carrier Key

Tube and Gas Tube. In addition to all six of the special purpose brushes, the kit also includes the Eliminator cleaning Tool & Rod, perfect for tight cleaning jobs where a regular rod just won't cut it. You can use the tool alone for the Bolt Carrier Key Brush or as a handle to attach the Bore Cleaning Rope. Use with Iosso Bore Cleaner and Eliminator Gun Oil to reduce cleaning time and increase gun accuracy. The kit can be purchased at iosso.com or by calling toll free at 888-747-4332.

SIG SAUER 516 AR-15

The new Sig Sauer 516 AR-15 features a 30-round standard mag and variable gas piston system. Available in 7-, 10-, 14.5- and 18-inch barrels, Sig Sauer was asked by the public to

produce this gun, which has been improved with Sig accessories. Apart from the new gas piston system, the gun handles identical to an AR system. To support the new gun, Sig Academy is also establishing a new AR-15 program to train operators on the gun. For more information, visit sigsauer.com.

T7 TACTICAL SCOPE RINGS

The new T7 Series Tactical 30mm rings from Tactical Rifles are designed specifically to meet the demanding needs of law enforcement and military snipers. The T7 rings are rated up to .50 BMG. Advanced alloys ensure lighter weight while still providing

more strength than steel. Boasting six torx screws per 60% more gripping surface than conventional rings and a nylon coating, the T7 Series Tactical rings are built for use in the most extreme environmental conditions. For more information, visit tacticalrifles.net or call 877-811-4867.

AR FIVE SEVEN

Developed and manufactured by 57 Center, the AR-57 rifle is an innovative AR carbine chambered in the 5.7x28mm cartridge. Featuring a top-mounted 50-round magazine, the AR-57 offers high-performance shooting in a low-recoil package. For more information, visit the 57center.com website or call 888-900-5728.

WILSON COMBAT AR 6.8 SPC

Wilson Combat has come out with custom AR platform rifles chambered in 6.8 SPC caliber, developed by the United States Army Marksmanship Unit to offer superior downrange lethality over the 5.56 NATO in an AR pattern service rifle with minimal loss of magazine capacity and a negligible increase in recoil. Boasting outstanding accuracy and reliability, the 6.8 SPC is capable of pushing a .277 caliber, 85-gr bullet to over 2900 fps with their match-grade, Spec II chambered 16" barrels. This added ballistic performance makes the 6.8 SPC perfect for home protection and SRT/SWAT teams.

18-PIECE GUN TOOL

Avid Design, a new brand that focuses on developing specialized tools for outdoor enthusiasts, introduces The Gun Tool - a multi-tool designed for rifles and shotguns. It combines 18 of the most commonly used long gun tools into one compact ergonomic frame. One standout feature is the universal choke wrench that boasts a unique step design that securely penetrates into the slots of a tube and allows you to work with every gauge from the slender .410 to the mighty 10. To find out more and to learn about all 18 pieces, visit theguntool.com. To find out about all the other wonderful Avid Design products, visit aviddesignco.com.
