# SMART DRIVE™ 90 BIT SET

## LED SWITCH:

The large screwdriver is equipped with a light to see the hardware you're working on. To turn it on and off, press the power button on the back of the screwdriver until it clicks.

## FORCE ASSIST™ FEATURE:

The small screwdriver will plug into the side of the larger screwdriver in order to help apply more leverage and torque to screws. Use an appropriate amount of force. Too much on any given bit will cause bending and eventual breaking.

## SCOPE TURRET TOOL:

Use this tool's 3 precision cut ends for Ruger-Weaver, Redfield, and Leupold-Bueheler screws.

## SMALL SCREWDRIVER:

This tool can be used as a small bit driver. It can also be used to break rust free from a stubborn screw by gently hitting the domed end with a small hammer.

## MAGNETIC PARTS TRAY:

The parts tray is magnetic to hold small pins and other hardware securely. This tray can also be used with Real Avid expansion kits.

## LED BATTERY REPLACEMENT:

Rotate the red notched part of the cap on the large screwdriver until it comes off. Pull out the battery cartridge and replace the 3 x AAA batteries. Follow the + and - markings to orient the batteries correctly.

**CARE & MAINTENANCE:** Store this kit in a cool, dry location. Bits that fit their respective hardware correctly will be less likely to break. Make sure the specific bit you're using fits the slot completely edge to edge and side to side. The slot should be free of debris, dirt, corrosion, dried lube or other finish. If a screw resists rotation, apply a penetrating solvent and allow ample time for penetration before trying to remove. If bits do break, replace them and don't risk damaging your firearm. Your bits come with a protective coat of oil that helps prevent rust, but it will wear away with use. It may be necessary to apply an additional coating of rust protection or machine oil to extend the life of your bits. If the bits do develop rust, remove with a non-abrasive pad and penetrating oil.

**WARNING:** Always wear safety glasses when using this kit. Fasteners and bits can break off and turn into projectiles that are potentially harmful.

## WARRANTY

**Limited – 1 Year Warranty:** This kit is guaranteed free of defects in materials and workmanship for one year from date of original purchase. Call Real Avid customer service and we'll provide you with support for bits from this kit. Real Avid will replace or repair any product that proves defective upon our inspection. Use of the Smart Drive™ 90 Bit Set for anything other than its intended purpose is considered misuse and voids this warranty. For warranty service, send the product, proof of purchase with shipping paid, along with an explanation of the defect, as well as your name, address and phone number to the address below. This warranty excludes damage resulting from deliberate or accidental misuse. Warranty does not cover rust, stains or corrosion, or normal wear and tear. Repair or replacement is the exclusive remedy under this warranty. Real Avid, its partners and affiliates are not liable for incidental or consequential damage resulting from use. Some states do not allow exclusion or limitation of incidental or consequential damages; therefore, the above exclusions may not apply to you. This warranty gives you specific legal rights, and you may have other rights, which vary from state to state.

**TO FRIENDS AND CUSTOMERS:** As the owners of Real Avid, authenticity isn't just a strategy here. It's a guiding philosophy. It arises out of our faith and personal relationships with Jesus Christ. We know that our creativity and success ultimately comes from Him. He cares about each of us and about our customers. We're not perfect, but we are committed to following Him in our personal and business lives.

We look forward to growing our relationship with you and continuing to earn our place.
